2x sandpaper blocks (grits P320 and P240 or sim.)
1x sandpaper sheet (grit P600)

percussion 2:

1x MIDI cue pedal
glockenspiel
4x squeaky toys for dogs shaped like animals
1x bird whistle shaped like a bird
29" timp
1x DIY "horn" (see above)
3-4 lbs. of clay
water

percussion 3:

1x MIDI controller
mark tree
4x squeaky toys for dogs shaped like animals
1x bird whistle shaped like a bird
23" timp
bass drum (w/ med/hard mallets); shared with P1
1x DIY "horn" (see above)
sand, medium coarse (approx. 1/3 mm.)
a glass jar (approx. 16 oz.)

AMPLIFICATION

percussion 1:

1x S or L diaphragm condenser (hyper-cardioid pattern) on soap jar + sandpaper

percussion 2:

1x clip-on or dynamic mic for voice
1x S or L diaphragm condenser (hyper-cardioid) on timp + clay
EHX V256 Vocoder pedal
1x reamper

percussion 3:

1x S or L diaphragm condenser (hyper-cardioid) on timp + sand

2x small diaphragm condensers (cardioid) in ORTF configuration overhead

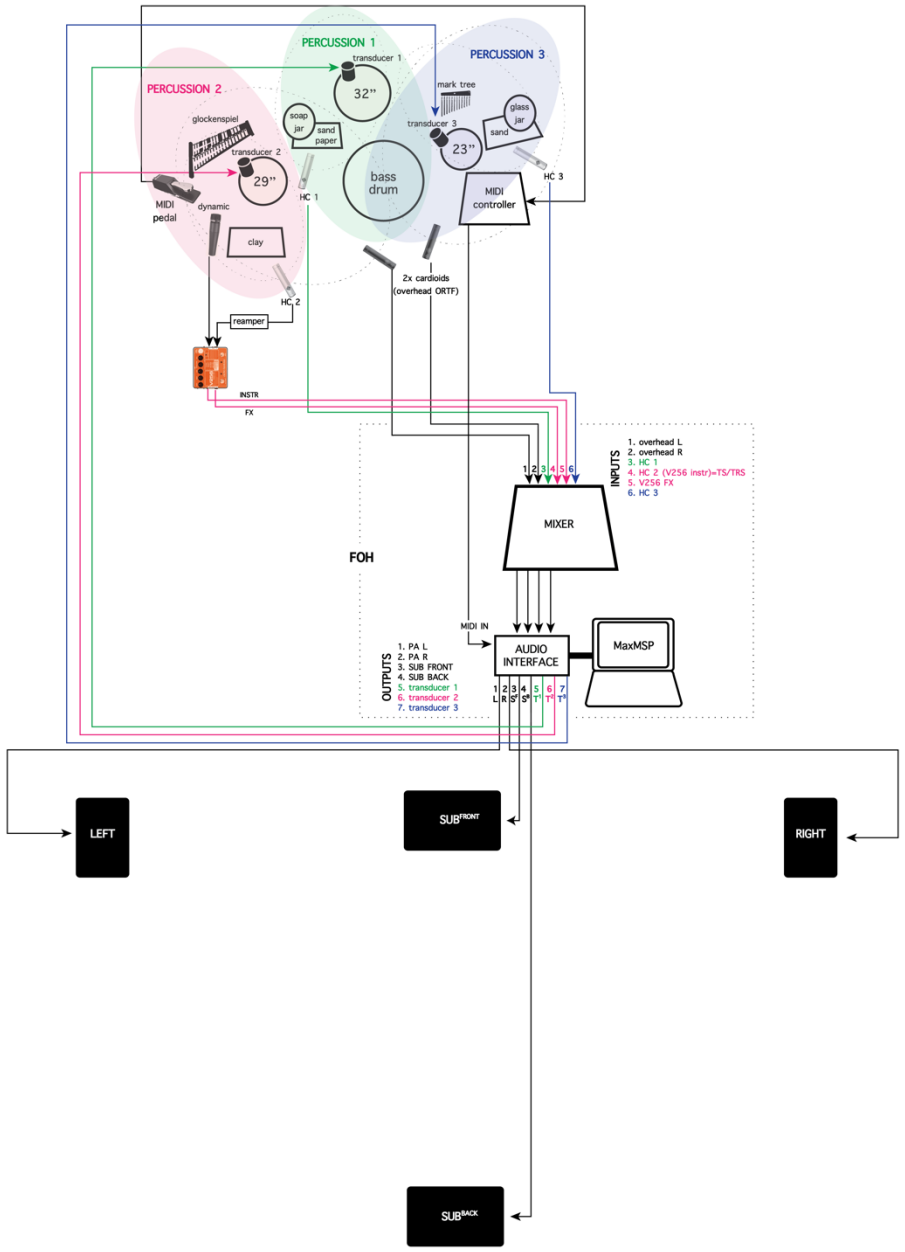

ELECTRONICS

PA or studio monitors (L & R) in front of audience
2 large subwoofers, one in front, one behind the audience
3 vibration speakers (transducers), one on each timp

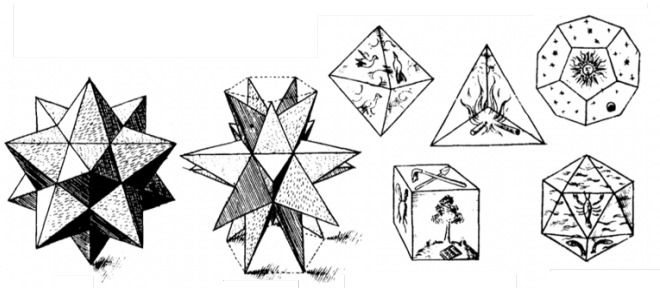

audio interface + computer running MaxMSP
mixer

(all mics can be patched directly through the mixer; no need for processing in Max)

STAGE PLOT/TECH RIDER

A world that documents its own creation, little by little.

this piece was commissioned by line upon line from Austin, TX
many thanks to Matt for his trust

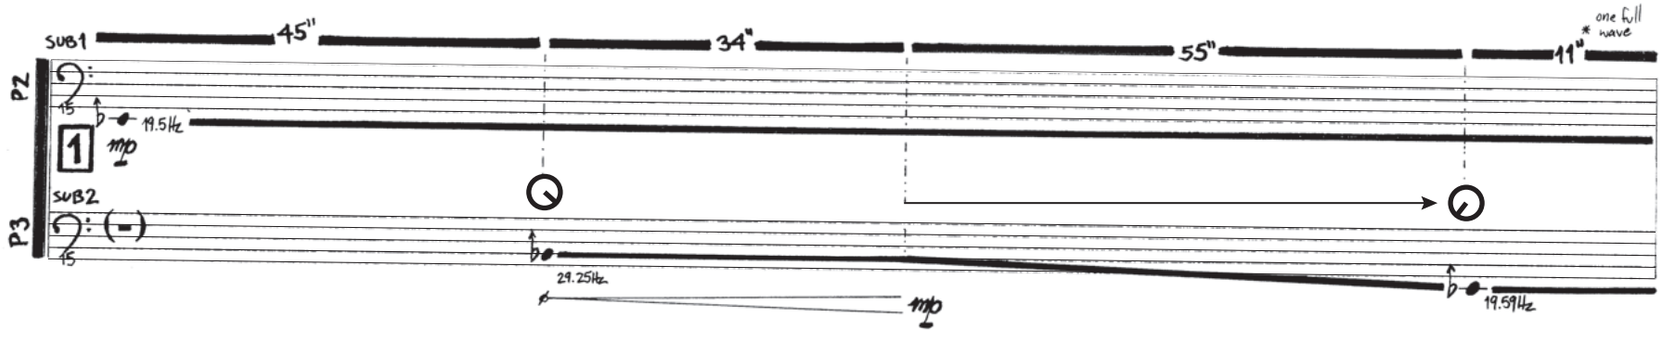

written in stages between June 2021 and March 2024

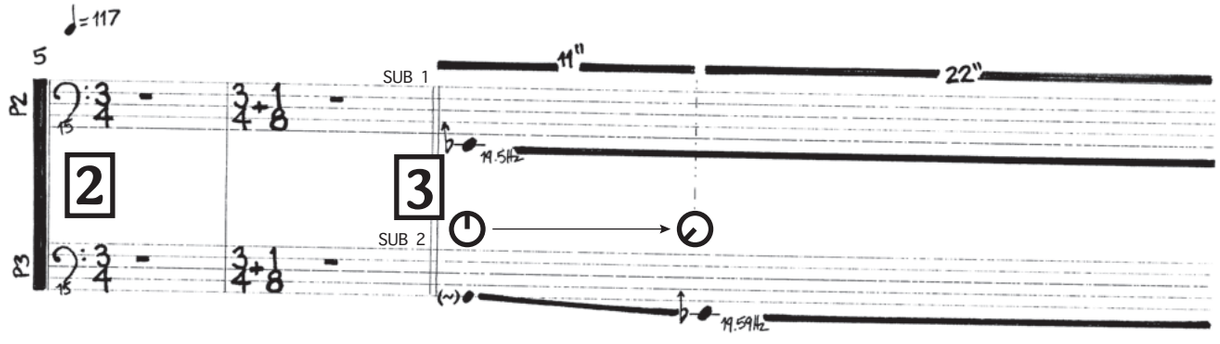

duration: 22 minutes
